ReMap 2 Underway at Second Athens Biennale

Events parallel to the Second Athens Biennale are taking place in vacant buildings, parking lots and derelict plots of land in the Kerameikos and Metaxourgeio district of downtown Athens. ReMap 2, through October 4, 2009, features more than 40

cultural events and art happenings, including exhibitions, open-air and site-specific installations by Greek and international galleries, independent curators, art groups, architects and Kerameikos and Metaxourgeio (KM) residents. Projects includes the Open Air Screening Room and the Guerilla Playground explore synergies between art and everyday life in the transitioning KM neighborhood, and The Documentation Project keeps an online real-time visual diary of what is happening there. "SiteSpecificStrategies," a September symposium, brings together KM residents, architects, urbanists and scientists who will explore the role of architecture in shaping future urban identity, using the KM area as a reference and siting architectural events in the neighborhood.
